Education

BS Software Engineering (2022 – 2026)

Virtual University of Pakistan

Pre-Engineering (2018 – 2020)

Islamia Model Education System,
Mamunkanjan

Skills

- Flutter | Dart
- Firebase
- AI/ML Integration
- Provider / Bloc
- SQLite
- REST APIs
- Git
- Responsive UI/UX
- Debugging
- Agile system
- Taxation

Tools

- VS Code |
- Android Studio
- Git/GitHub
- Postman
- Firebase
- SQLite
- TensorFlow / ML Kit
- Figma

Abid Ali

Senior Flutter Mobile App Developer

Highly motivated and detail-oriented Flutter Developer with strong experience in building scalable, high-performance mobile applications. Skilled in Flutter, Dart, Firebase, AI/ML integration, state management, and responsive UI/UX. Experienced in publishing apps to Google Play and App Store with optimized architecture and performance.

Work Experience

Flutter Mobile App Developer | Freelance / Personal Projects

Jan 2023 – Present

- Developed cross-platform mobile applications for Android and iOS using Flutter and Dart, ensuring smooth UI/UX and responsive designs.
- Implemented state management solutions using Provider / Bloc / Riverpod for scalable app architecture.
- Integrated REST APIs and handled JSON parsing, CRUD operations, and real-time data updates.
- Built user authentication and authorization features with Firebase Auth and Google Sign-In.
- Added push notifications, in-app purchases, and local storage (SQLite / SharedPreferences) in multiple apps.
- Optimized app performance and reduced app load time by 20–30% through code refactoring and widget tree optimization.
- Published apps to Google Play Store and Apple App Store, following store guidelines and beta testing processes.

Projects

- E-Commerce App – shopping cart, product listing, payment gateway (Flutter, Firebase, REST API)
- Task Management / To-Do App – CRUD tasks, notifications, local storage (SQLite, Flutter)
- Chat / Messaging App – real-time chat and notifications (Flutter, Firebase)
- Kids Learning App – interactive learning with custom-trained AI model that detects numbers and letters drawn by kids on screen and provides instant feedback; includes gamification and animations (Flutter, Firebase, AI/ML)
- School Management System – student registration, attendance, grades, timetable, and notifications (Flutter, Firebase)
- Expense Tracking & Sharing App – tracks expenses, generates reports, and uses AI/ML to detect bill amounts from receipts (Flutter, Firebase, SQLite, AI/ML)
- Medical Appointment Booking App – doctor list, calendar, booking system (Flutter, Firebase)
